

Benefits:

- Reduces electricity required by existing inductive loads
- Enhances capacity of existing electrical system
- Eliminates danger of harmful power surges on appliances and sensitive electronic equipment (2000 Joules)
- Reduces (EMF) harmful effects caused by electrical noise in the electrical system

Features:

- Electrical Noise Reduction
- Power Factor Optimization
- Voltage Regulation

Specifications:

- 5 Year Warranty
- 20 Year Design Life
- NASA tested, Utility tested, and Cleaner Greener Certified
- Built In USA
-  Working for a safer world
- 
- Cleaner Greener Registered
